

The system detailed below includes software, camera, plastic card printer & enough consumables to produce **500 photo ID cards with secure UV print**. To get you up and printing as quickly as possible we'll create your custom card design and database!

## Design

FREE bespoke database creation and FREE professional card design using your logo and required database fields for easy plug-and-play set-up.

## Personalise

Synchronise with existing databases, import or simply type the card holder's details, capture the image & print – quickly and easily. Lite version limited to 100 database records; upgrade to Pro for unlimited database sizes!

## Print

Low cost, latest technology, high definition plastic card printing for edge-to-edge designs. Fast, reliable and quiet - ideal for the office environment!

## Secure

Unique six-panel UV ribbon increases the security of the cards by enabling users to print a personalised secure UV layer to the cards. The cards can be verified using the Smart® UV Torch supplied free with the system!

## Display

Wear your new cards with pride! A pack of our best selling lanyards and Card Shield (made from Police Riot Shield plastic!!!) badge holders are bundled with the ID System.

### Six Panel Printing Explained...

How do you check that an ID card is official and printed by your staff? No other system on the market allows you to print personalised information pertinent to the card bearer in secure UV covert ink. Virtually invisible to the naked eye the UV printed layer can be checked using the supplied **Smart® UV Key Ring Torch** supplied free with each system!

### HDP 5000 Printer Upgrades

<b>Magstripe Card Encoder</b>	Add £295.00
<b>Mifare Encoder</b>	Add £645.00
<b>Dual Sided Printing</b>	Add £495.00
<b>Single Sided Laminator</b>	Add £1295.00

### Annual Printer Hot Swap

Add £395.00

How would you be affected if you were without your card printer for a week? In the unlikely event that your printer fails the printer would be fixed by us under warranty however this can take a number of days to identify and rectify the problem. Customers with Annual Printer Hot-Swap Support benefit from **free telephone support** for their printer and a **next day replacement printer** to use whilst your printer is being repaired. Add Hot-Swap Printer Support to your order for peace of mind and guaranteed card production.

“ ...very impressed not only with the speed of the printer but the ease of use of the software, I'm impressed with the ease of ordering and the speed of delivery – many thanks!! ” Krysz Glinski

PRO VERSION

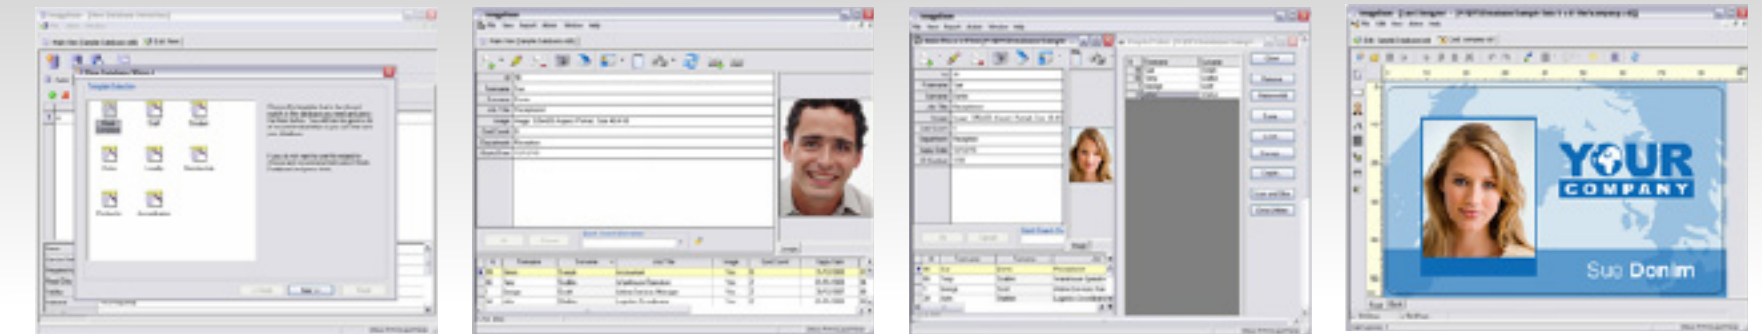

## Bundled High Definition System Software ImageBase Pro

Included with the High Definition System is the award winning ImageBase Pro ID card software. Designed to be simple to use yet powerful enough to handle any ID, Loyalty, Discount, Membership or Exhibition card application. It eliminates double data entry by connecting easily to existing databases, saves users time with batch print functionality and quick-search for re-prints and adds security with the unique ability to print variable UV information (when used with Smart printer only) to the cards.

**Install and start printing in minutes! Setup wizard, full colour manual with screen shot illustrations and easy to follow instructions will have you issuing staff identification cards or membership cards within minutes of downloading the software!**

## Onsite Installation & Training

Add £395.00

For just £395.00 a friendly engineer can attend your site (anywhere on mainland UK) and show you and your colleagues how to get the most out of the High Definition System. The engineer will save you time and money by showing you the fastest way to produce staff ID cards, car-park passes, business cards or visitor passes all using the High Definition System. Whilst on-site they will install the printer, install the software, configure the database and card designs and train you and your colleagues - no jargon and all in the comfort of your own offices!!! **Special Offer! Onsite Installation & Training only £ 195 when purchased in conjunction with annual software support and printer Hot-Swap support.**

## Offsite Installation & Training

Add £50.00

For just £50.00 the same service as detailed above can be executed remotely via the internet.  
**Special Offer! Offsite Installation & Training FREE with annual support contract £95, see below.**

## Annual Software Support

Add £95.00

Need to amend a card design or had a request to add a field in the databases? Need help with software shortcuts to save time? Struggling to encode your smart card or can't connect to your personnel database? Simply pick up the phone and call our friendly support team - we have no limits to the number of calls or call lengths and, with your permission, we can even take control of your ImageBase remotely and do it for you while you enjoy your lunch! All for **just £95.00 for 12 months!!!**

Software support customers benefit from **FREE** updates to ensure they have the latest version of our award winning ImageBase software.

*I've started working with the imagebase software and value ID Card System today and I'm really impressed with it, thank you for your help arranging this.* **Clive Deacon**
