

Authentys PRO 200 Single-Sided ID Card Printer

Ideal for creating professional IDs, these cards offer the perfect blend of quality and security that withstand daily wear and tear without fading or becoming unreadable. The PRO 200 is a single-sided printer, designed for efficiency, producing a cost-effective full colour card in just 18 seconds. It features an input hopper with a capacity of 100 cards, and an output hopper that holds 50 cards, allowing you to print up to 50 cards at a time without needing to monitor the process, or standing next to the machine. This printer is a simple, no-fuss machine, deal for creating professional looking cards that withstand daily wear and tear without fading or becoming unreadable.

COST-EFFECTIVE

The most affordable entry-level card printer on the market.

RELIABLE

Authentys are a well-respected global printer manufacturer renowned for their engineering quality and reliability.

HIGH QUALITY

High Resolution printing using 300 dpi printing provides superior print quality.

SECURE

Each printed card is overlaid with a protective layer that adds durability and prevents tampering.
